HYPNOS LIMITED ENGLAND

# HYPNOS®

THE MOST COMFORTABLE BEDS IN THE WORLD

**Hypnos, a family-run British company, has been handcrafting luxury beds and mattresses using time-honoured methods for over 100 years. Indeed Hypnos has been trusted by the finest homes, palaces and hotels since 1904 to provide a deeply relaxing and rejuvenating night’s sleep, fulfilling dreams for a long and healthy life.**

Each stylish Hypnos bed is made by master craftsmen in Buckinghamshire, England. Their passion, experience and unparalleled attention to detail guarantees exceptional, long-lasting comfort and quality.

Hypnos’ assured quality is reinforced by a 10 year guarantee and by a Royal Warrant from Her Majesty Queen Elizabeth II, which provides a mark of the best of British manufacturing, underlining Hypnos’ commitment to sustainability and reputation for making the most comfortable beds in the world.

Choose your comfort level and mattress, then create your own bespoke bed, with your preferred divan base, headboard style, fabric colour, hidden storage, plus your choice of legs or feet. Hypnos will then handcraft your authentic piece of beautiful furniture – a sublime expression of enduring British craftsmanship.

*“We truly believe that a Hypnos bed will be the most comfortable bed you’ll ever own.”*

**James Keen  
Managing Director**

# THE POWER OF SLEEP

WAKE UP BEAUTIFULLY

**Did you know, we spend a third of our lives in bed asleep? Making sleep a priority in your life is one of the easiest ways to help improve your health and wellbeing. At Hypnos we take our responsibility seriously for helping you sleep well and wake up better. We have a talent for creating supremely comfortable and beautiful beds that help you enjoy a relaxing and rejuvenating night's sleep, helping to improve your daytime alertness, productivity and performance.**

Sleep protects both your physical and mental health and, subsequently, your quality of life. It also plays a major role in stimulating growth and development, repairing muscles and tissues, boosting your immune system and maintaining beauty by slowing down the ageing process. A good night's sleep allows you to wake up feeling energised, refreshed and ready to tackle the day ahead.

For the best night's rest, it is essential your bed offers the right type of comfort and support whilst your room provides a calm environment to allow your body, mind and soul to fully relax.

We passionately believe that the quality of your sleep is dramatically enhanced by sleeping on a mattress made with breathable natural fibres and intelligent pocket springs. These work in harmony to minimise pressure points and care for your spine and posture, whilst also helping to regulate body temperature and repel allergens.

*“Sleep is central to a healthy and happy life, helping the body to fight disease and allowing you to live life to its fullest.”*

# BRITISH HERITAGE

TRUSTED SINCE 1904

**For many years, High Wycombe in Buckinghamshire was the ‘furniture capital of England’ and this is where George Henry Keen decided to set up his furniture business.**

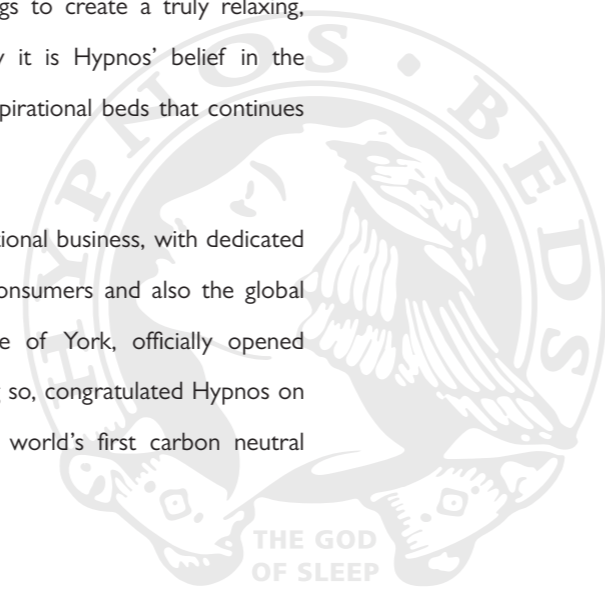

Peter Keen, our Chairman, is the fourth family generation to run this award-winning business, dedicated to making the finest handcrafted beds for homes, palaces and hotels around the world. His son James Keen directs the teams and workshops that service consumers via our international retailer network, together with his sister, Sarah Keen, who ensures the smooth realisation of their expectations.

Indeed the Keen family’s furniture-making heritage goes back to the late 19th century, with its chair upholstery skills renowned throughout England. The Keen’s first Royal Warrant was received in 1929 following commissions completed for Windsor Castle and Buckingham Palace, and they have held Royal Warrants ever since. Today the family businesses and master craftsmen focus purely on the production of luxury Hypnos mattresses and upholstered beds.

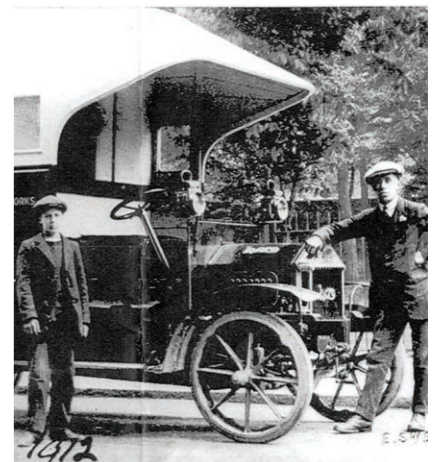

The Hypnos brand was established in 1904, with the famous God of Sleep ‘watermark’ introduced later and trademarked in 1927 to reinforce Hypnos’ authority in using natural fibres and pocket springs to create a truly relaxing, healthy and rejuvenating night’s sleep. Ultimately it is Hypnos’ belief in the art of sleep and in creating truly beautiful and aspirational beds that continues to set us apart.

Hypnos has grown into a strong and trusted international business, with dedicated manufacturing sites in England to look after both consumers and also the global hospitality market. His Royal Highness, The Duke of York, officially opened Hypnos’ new hospitality factory in 2016, and in doing so, congratulated Hypnos on its commitment to sustainability and to being the world’s first carbon neutral bed maker, a status first achieved in 2011.

*“From George Henry Keen to James Keen, our family values have never been stronger.”*

**Peter Keen**  
Chairman

# BY ROYAL APPOINTMENT

SLEEP LIKE ROYALTY

**As a multi award-winning bed manufacturer, recognised for its comfort, sustainability and service, Hypnos is proud to have been granted a Royal Warrant, the ultimate quality award.**

The Warrant, which was first granted to the Keen family in 1929 by King George V and later renewed by King George VI, The Queen Mother and Her Majesty The Queen, is a sign of the best in British design, and is only awarded to those who can demonstrate supreme quality with strong ethical and responsible production methods.

Furthermore, Hypnos actively supplies beds to the Royal Residences including Buckingham Palace, Windsor Castle, St James's Palace, Balmoral Castle, Sandringham House, The Palace of Holyroodhouse and Kensington Palace. Hypnos has even presented to the Royal Households at Buckingham Palace on the importance of sleep and its impact on health. More recently the business created bespoke upholstery commissions for The Royal Family, including replacing the banquet seating for the Ballroom at Buckingham Palace.

It is achievements such as these that have made the Royal Warrant an integral part of the way Hypnos operates, becoming part of the rich history behind the family-run company. Additionally, it acts as a guide in the pursuit of innovation, helping to reinforce the strength of Hypnos' offering. It is this synergy which has assisted the business in succeeding in international markets, ensuring you can be confident that its products stand the test of time.

# CRAFTSMANSHIP

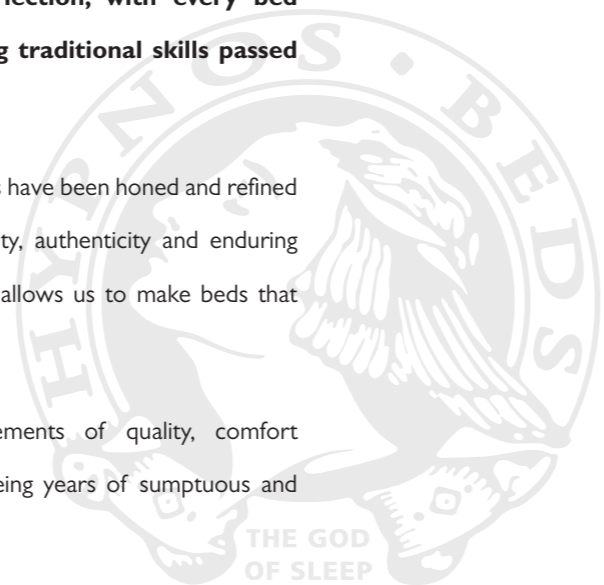

TAILORED TO YOU

Hynnos has been practicing and perfecting the art of making luxurious beds since the 1900s. Each and every Hynnos bed is a bespoke handcrafted creation, a masterpiece. Our philosophy and commitment focuses on the pursuit of perfection, with every bed lovingly handmade by master craftsmen, using traditional skills passed down from generation to generation.

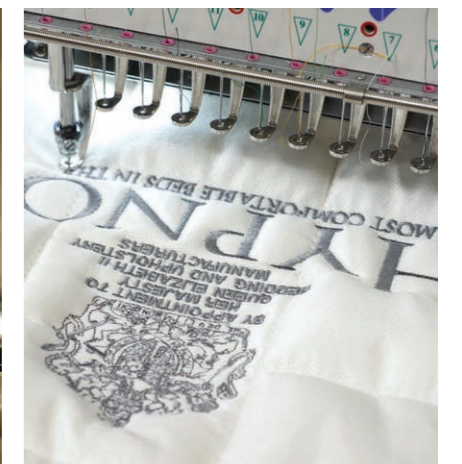

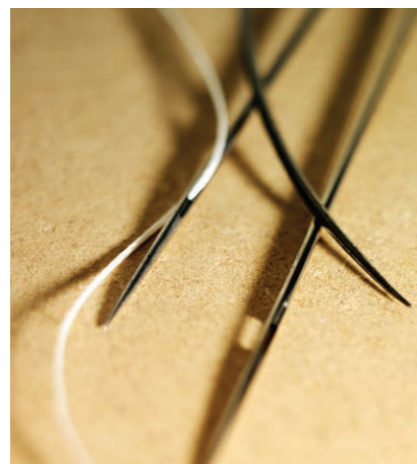

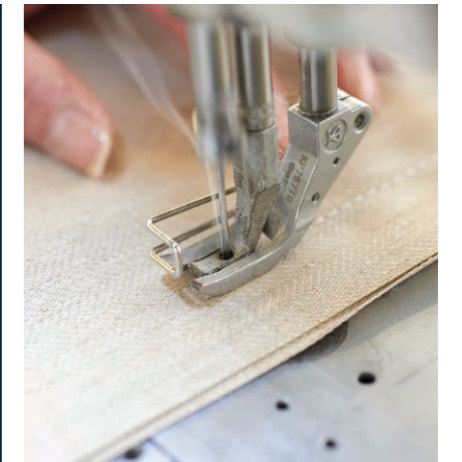

What's more, our craftsmen's time-honoured methods have been honed and refined over a century to deliver consistently superior quality, authenticity and enduring comfort. It is this knowledge and rich history which allows us to make beds that we believe are the most comfortable in the world.

Our talented master bed makers place the elements of quality, comfort and exquisite hand tailoring above all else, guaranteeing years of sumptuous and deeply comfortable sleep.

Each bed from Hynnos is individually made to measure, made to order and made by hand, tailored to your personalised comfort level, size, shape and style, using the finest natural and sustainable materials for the ultimate restful night's sleep. This means you can design a truly bespoke and beautiful bed that will allow you to wake up feeling completely revitalised and refreshed.

*"Individually handcrafted, made-to-measure luxury beds – trusted by homes and hotels since 1904."*

***Be inspired and  
create your own bed...***

# SUSTAINABILITY

IT'S IN OUR NATURE

**Sustainability has been at the heart of Hypnos for over 100 years, and we are proud to create handmade beds and luxurious sleep, not only with a Royal Seal of Approval, but with a genuine claim to be caring and responsible. We are, after all, the only bed maker in the world to be carbon neutral.**

Our ongoing pledge to help preserve our environment and reduce our carbon emissions has led to a series of awards and, together with Hypnos' Royal Warrant of Appointment, which ensures we comply with stringent sustainability guidelines set by HRH The Prince of Wales, all reinforce our goal to lead the industry in ethical, responsible and environmental best practice.

A sustainable design ethos ensures Hypnos uses the finest natural and sustainable fibres, including traditional fleece wool from sheep alongside more exotic fibres like cashmere, alpaca, horsetail and silk. All of these have long-lasting, soft and moisture-wicking properties, to create the most comfortable sleep environment, actively helping to regulate body temperature for a perfect night's sleep.

*“At Hypnos, we are committed to reducing our carbon footprint and to using environmentally-friendly materials of the highest quality.”*

This approach to sustainable design not only ensures no synthetic foams are used in our mattresses, but also dictates we use only certified sustainable timbers in our divans. Our workshops are FSC® certified and have passed the Sedex™ ethical trading audit, which, along with our PAS 2060 Carbon Neutrality status, truly sets Hypnos apart in the world.

Our mattresses and beds are guaranteed to last a minimum of 10 years, hence need to be replaced less frequently, helping conserve natural resources. They are also 100% recyclable at the end of their life, ensuring they never need to go to landfill. In addition, Hypnos has created a unique old-bed disposal and recycling service that ensures 100% landfill avoidance, with recycled raw materials from deconstructed mattresses re-used in other industries.

Our wider commitment to sustainability can also be seen through the work we do with 'Business in the Community', one of HRH The Prince of Wales charities, which helps businesses tackle a wide range of issues that are essential to building a fairer society and a more sustainable future. Examples of our work here range from developing Apprenticeship programmes to actively supporting charities and good causes in our community, focusing on working with young people on a range of educational initiatives from Young Enterprise to donating trees to plant in schools, teaching children about the importance of protecting the environment.

***Be inspired and create your own bed...***

# OUR PERFECT COMFORT

## THE ART OF SLEEP

Hypnos are experts in the art of sleep, honed from over a century of bed making, mastering artisan techniques, whilst utilising the very finest materials to create a breathable, resilient and active sleep system offering supreme comfort and total body support while you sleep.

3 tier  
UltraSens™ spring

### PRESSURE RELIEVING POCKET SPRINGS

At the heart of each mattress is Hypnos' intelligent 'suspension' system to support your body from head to toe. Individual ReActive™ or UltraSens™ high-tensile steel springs are sewn into their own breathable fabric pockets, enabling the independent movement of each to evenly distribute your weight.

Pocket springs actively minimise pressure points on the body, helping to increase blood circulation and alleviate tension, which in turn allows your muscles to relax. Our mattresses mould to your body, leading to a natural spinal alignment and healthy back support.

The shape of Hypnos' pocket springs has been uniquely designed to incorporate intuitive active turn technology. The more active turns in a spring, the greater its ability to recognise your body's unique imprint, sensing your shape, height and weight distribution, providing comfort and support exactly where you need it, with each and every spring seamlessly adjusting to your every move.

*"All Hypnos mattresses and beds come with a 10 year guarantee for ultimate peace of mind."*

## NATURALLY ALIGNED WITH POCKET SPRING BODY SUPPORT

Pocket springs also create a 'bellows-like' effect that drives cool air around the mattress and facilitates greater hygiene. This extra breathability ensures better ventilation, helping to reduce moisture and maintain a comfortable body temperature for a healthy, relaxing and energising night's sleep.

### PURE NATURAL FIBRES

It is in our nature to use natural fibres, and there can be no doubt that these quality renewable fibres are perfect for creating an active and resilient micro-climate to effectively help your body breathe and to keep you cool.

Each mattress is made using a unique and subtly different blend of generous layers of natural, sustainable and breathable fibres such as wool, horsetail, cashmere, alpaca and silk. The final weight and composition of the layers provide subtle differences to comfort and breathability gained from years of insight.

These soft and comfortable fillings promote air flow and reduce moisture, thereby helping to regulate body temperature and keep you cool. They also repel allergens, enhancing your sleep experience by creating the perfect environment for rejuvenating rest.

### HANDMADE SKILLS AND QUALITY

Each mattress is assembled and built by hand. The fabric border is cut, sewn and finished with special chrome vents to help keep the inside of the mattress cool, with a series of handles sewn onto the border to help move the mattress.

Each fabric border is attached to the pocket springs by painstakingly hand sewing the two together to create an edge-to-edge sleep surface. A specialist two-ended 30cm needle is used by our craftsmen to hand side-stitch a number of rows at set intervals, creating a series of characteristic squares – the greater the number of rows, the stronger the mattress will be.

The natural fibres are layered and teased by hand onto both sleeping sides of the pocket springs and held in place with a beautifully silky Belgian damask. The border and the top and bottom damask covers are sewn together and finally the mattress is hand tufted, again using long needles to pass twine straight through the mattress from one side to the other. This holds all the natural fibres in place and under tension, which with the help of a woollen tuft at each end of the twine, creates a beautiful 'rolling' sleeping surface.

## BENEFITS OF NATURAL FIBRES

### WOOL

Wool is a soft, durable and sustainable fibre. This natural fibre has the ability to act as a climate control unit, keeping you warm in the winter and cool in the summer, ventilating the mattress and allowing it to breathe. Wool is superb at reducing moisture build up (it can absorb twice as much moisture as cotton), creating a more comfortable sleeping environment. It can also help inhibit the growth of bacteria, fungi and dust mites, creating a more hygienic mattress filling.

### PASHMINA

Pashmina is a fine type of cashmere wool fibre that provides a naturally soft and sumptuous feel to a mattress. These fine fibres help reduce moisture, keeping you cool and dry during the night, to provide you with a supremely comfortable night's sleep.

### BAMBOO

Bamboo is a natural and sustainable resource that, due to its inherent antibacterial properties, is resistant to fungi, pests and bacteria, which can help avoid allergic reactions. Bamboo has the added benefit of being able to reduce moisture build up, and is three to four times more absorbent than cotton, making it the perfect fibre to be used in mattresses and in mattress ticks.

### HORSETAIL HAIR

Horsetail fibres have innate strength and springiness so they won't break or lose their natural flexibility, helping to restore the integrity of a mattress. Each strand cushions and supports every contour of your body. As the fibre has a greater surface area, it can remove moisture faster, helping to regulate body temperature as well as being quick-drying.

### COTTON

Cotton is a naturally soft and fluffy fibre which provides great ventilation for a mattress, reducing perspiration and high humidity. The fibres have great absorbency, allowing the filling to breathe naturally. Cotton is also strong and durable, making it not only a hygienic and comfortable filling, but also a resilient one.

### CASHMERE

Cashmere has a unique softness and adds a luxurious feel to a mattress. The fibre's natural resilience ensures that this exquisite softness will last for years. The high moisture content allows its insulation properties to change with the air humidity, helping to keep you warm in the winter and cool in the summer.

### SILK

Silk is a luxuriously soft and sensuous fibre with exceptional moisture absorbing and thermal qualities, helping to regulate body temperature throughout the year. Silk is a very strong and durable filling and has the added benefit of being very breathable, allowing air to pass through quickly.

### ALPACA

Alpaca is made up of hollow fibres that allow water molecules to move freely, which in turn keeps you cool and dry during the night. Alpaca benefits those who suffer from allergies as it naturally does not harbour dust mites or their allergens, which can cause asthma or allergies in the bedroom.

### CAMEL WOOL

Camel wool is used in a mattress due to its excellent thermostatic properties. The fibres reduce moisture keeping you dry and your mattress fresh, with the added benefit of providing an exquisitely soft and comfortable feel.

# PERSONALISATION GUIDE

## CREATE YOUR PERFECT BED

### COMFORT – A SUBTLE CHOICE

**Buying a new bed and mattress is a major decision. After all, your rest and relaxation are at stake. At Hypnos, we offer a wealth of subtly different comfort choices so you can find the optimal mattress to suit your sleeping – and waking – preferences.**

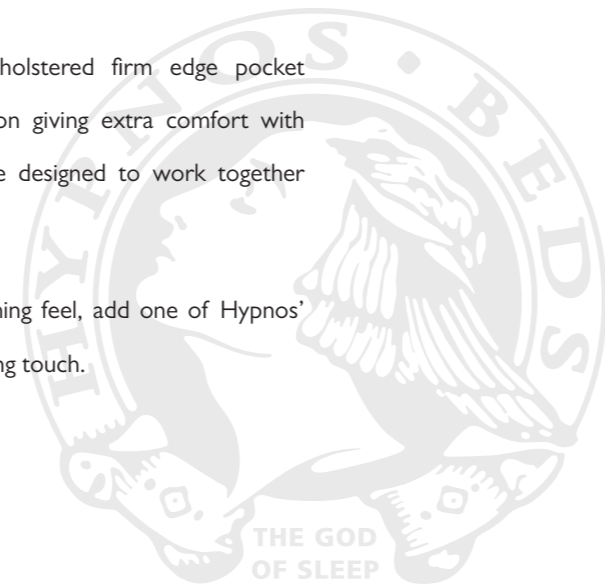

But which comfort level is the perfect match for you? How firm do you like your mattress?

People enjoy different comfort levels, there is no substitute for visiting a retailer and taking your time to try out the beds in their showroom. The way it feels to lie and turn on the mattress is crucial – grab a pillow and adopt your preferred sleeping position – allow the mattress to absorb the weight of your shoulders and hips and check that your spine is straight.

If you and your partner prefer different levels of comfort, then choose our zip and link service where a mattress is divided into two separate parts, allowing each to be made with slightly different comfort levels – then we simply zip them together.

All of our mattresses are matched with an upholstered firm edge pocket sprung divan base, providing the ultimate foundation giving extra comfort with edge-to-edge support. Both mattress and divan are designed to work together as a complementary set.

Finally, for an even more luxurious, soft and cocooning feel, add one of Hypnos' comfort layers onto the mattress for that extra finishing touch.

### BIG IS BEST

The general rule is to buy the biggest bed you can fit into your bedroom. The larger the bed, the more room you (and your sleeping partner) have to move without disturbing each other.

You should be able to lie side-by-side with your arms behind your head without touching each other.

Remember, size does not only mean the width, but also the length of the bed, which should be 10-15cm longer than the tallest sleeper.

#### Our standard bed sizes

- W 90cm x L 190cm (3' 0" x 6' 3")
- W 135cm x L 190cm (4' 6" x 6' 3")
- W 150cm x L 200cm (5' 0" x 6' 6")
- W 180cm x L 200cm (6' 0" x 6' 6")
- W 200cm x L 200cm (6' 6" x 6' 6")

### MADE TO MEASURE SIZES

Don't forget all our beds are bespoke creations, so it's easy for us to make a bed of any size or indeed any shape; longer for taller people; wider to accommodate your children as well; tapered for a yacht berth; specially shaped at each corner for an antique four-poster bed frame.

### STYLE GUIDE

Your Hypnos bed can be as individual as you, tailor-made to your exact requirements and styled to create a stand-out centrepiece for your bedroom that fits beautifully with your décor and personality.

From modern and contemporary loft and apartment living within busy cities, or the grand scale of an elegant château or country house, to the intimacy of smaller urban family homes that enjoy a mix of traditional and timeless trends and practical space-saving storage ideas, Hypnos will help to find a style that fits your environment.

# Comfort layers

## COLLECTION

Specialist loose comfort layers, using the finest natural and sustainable fibres, can be added to create an extra-soft feel. Hypnos' comfort layers have been designed to work in harmony with a Hypnos bed for truly luxurious sleep.

Each comfort layer provides an extra layer on top of the mattress, cocooning your body whilst you sleep. The addition of a comfort layer allows you to tailor the comfort to a level unique to your personal preference.

Hypnos' collection of comfort layers works in harmony with a supportive mattress to provide a soft and comfortable sleep experience. By adding a comfort layer, you can increase the contact you have with the surface of the bed, thus creating more support and additional comfort for the ultimate night's sleep.

### WOOL

- The 100% British wool filled topper not only provides an extra layer of comfort, it helps create a comfortable and relaxing sleeping environment by regulating body temperature for less disturbed sleep.
- The topper can be attached to the mattress with elasticated straps on each corner to ensure it stays in place.
- The wool is kept in place within the topper with a sewn in panel frame construction to keep it nice and lofty underneath you.
- As wool is anti-allergenic, this topper is ideal for those with allergies.

### ALPACA

- Upholstered with luxurious alpaca, the comfort layer provides a unique softness and aids temperature regulation, keeping you cool in summer and warm in winter.
- The addition of Solotex luxury cushioning, which promotes airflow, provides outstanding softness and has excellent shape retention, means your comfort is guaranteed to last for years to come.
- Covered in a luxurious, wool-infused Belgian damask for the ultimate in personal comfort.

### EMINENCE

- This sumptuous luxury topper features soft and breathable natural latex and lambswool to regulate body temperature.
- It is covered with a wool-infused Belgian damask and embroidered with the Royal Arms and Hypnos name.
- Latex is anti-microbial, dust mite resistant and hypoallergenic.
- The latex and wool filling helps provide superior back support and outstanding pressure relief.

### SOVEREIGN

- This sumptuous luxury topper is upholstered with soft and breathable bonded hair and lambswool to regulate body temperature.
- It is covered with a wool-infused Belgian damask and embroidered with the Royal Arms and Hypnos name.
- The wool and hair filling supports and cushions every contour of your body.

# Style guide

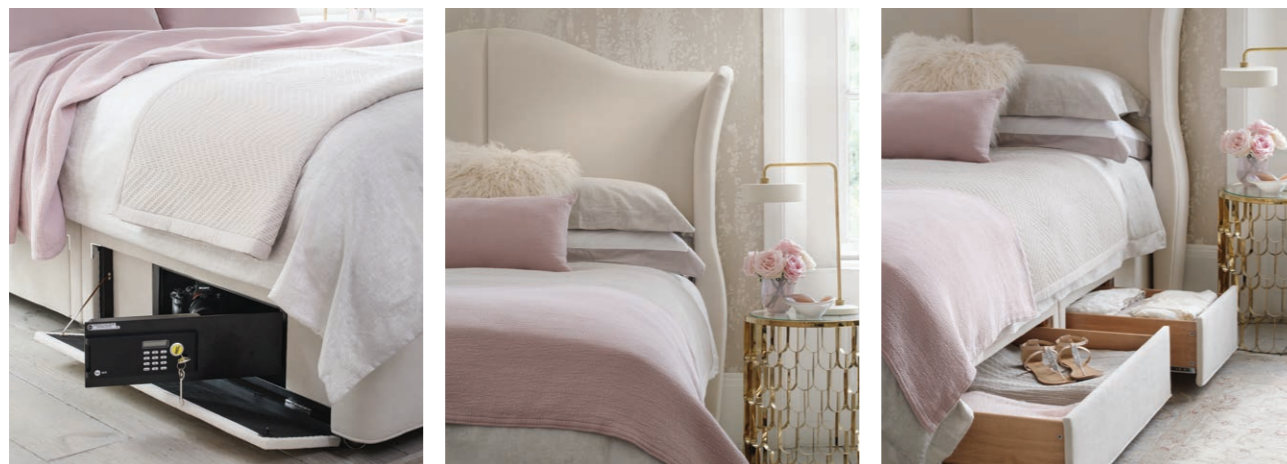

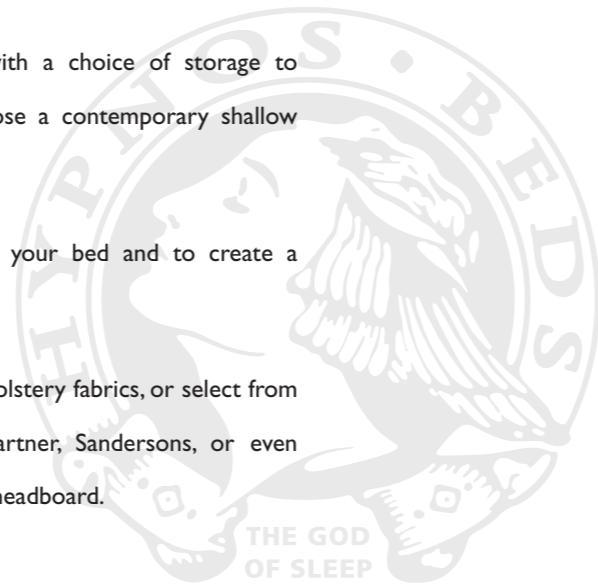

DESIGN A BED THAT IS  
AS INDIVIDUAL AS YOU

Stamp your personality on your bed by creating a stunningly-designed centrepiece that complements your bedroom's décor and delivers a beautiful night's sleep. Hypnos is an innovative, design-led bed manufacturer with over 100 years' experience in groundbreaking, yet practical, design.

Choose a traditional deep divan base, available with a choice of storage to increase space in the bedroom. Alternatively, choose a contemporary shallow divan for a floating bedstead look.

Select an upholstered headboard design to crown your bed and to create a beautiful focal point in your bedroom.

Finally, either choose one of 45 stunning Hypnos upholstery fabrics, or select from 58 premium fabrics from our royally-approved partner, Sandersons, or even source and supply your own fabric for the divan and headboard.

# Style guide

## DIVAN BASE STYLES

- Together, a Hypnos mattress and divan base provide optimal comfort and support, with the assurance of unparalleled longevity and a great night's sleep.
- We recommend a pocket spring firm edge divan base, which provides comfort and support right up to the edge of the bed.
- Each divan base is piped along the top and bottom for additional hand tailoring and an elegant finish, and can come with or without a chrome Hypnos name plate.
- Our traditional deep divan base comes with chrome castors as standard. Personalise with a range of discreet wooden feet.
- Specify an upholstered skirt or an upholstered bumper to surround the foot of the deep divan base. For the ultimate finishing touch, specify a wooden plinth for your divan base.
- Our shallow 'floating' divan base provides a contemporary and modern twist. Benefiting from Hypnos' superior upholstery, this shallow and piped divan base is available with a choice of 'stand-out' wooden and polished aluminium leg styles.

## HIDDEN STORAGE-DRAWERS

- Our divan bases can also include drawers in various configurations to accommodate your personal needs.
- Standard-size drawers can be combined with smaller continental-size drawers for ease of opening next to bedside tables.
- These drawers have been designed to accommodate lightweight items, such as pillows, bed linen or clothing. We recommend a maximum weight of 20kg per standard drawer, or 10kg per continental drawer.

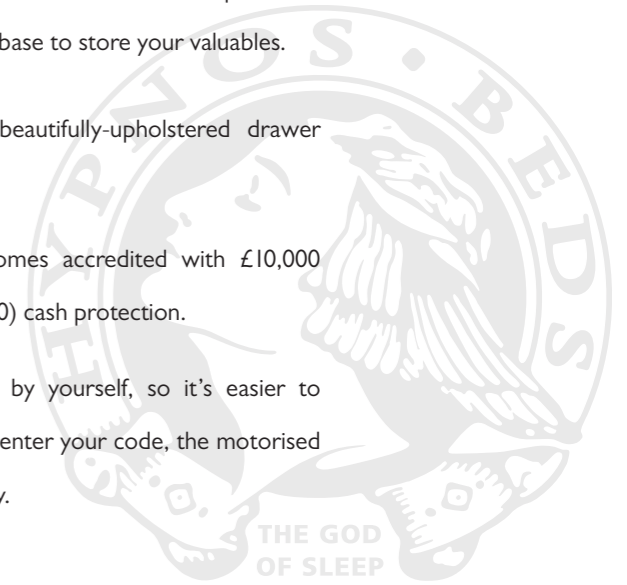

# Style guide

## HIDDEN DIVAN SAFE

- Hypnos has partnered with Yale, one of the world's best-known, and preferred lock brands, to discreetly add a safe into a divan base to store your valuables.
- The safe is hidden and secured behind a beautifully-upholstered drawer front built into the divan base.
- For ultimate peace of mind the Yale safe comes accredited with £10,000 (€12.000) valuables protection and £1000 (€1.200) cash protection.
- You can open the safe using a code chosen by yourself, so it's easier to remember and just as easy to reset. When you enter your code, the motorised bolts withdraw and the door opens automatically.

# Style guide

## SUPER STORAGE DIVAN BASE

- Our Super Storage divan bases provide the ultimate storage solution. Simply lift up the top of the divan, which is hinged to the base, allowing you to use the entire divan base for storage.
- Hydraulic springs make it easy to lift up even with the mattress in place.
- This provides an excellent solution for smaller bedrooms, as you do not need to allow room to pull out drawers.

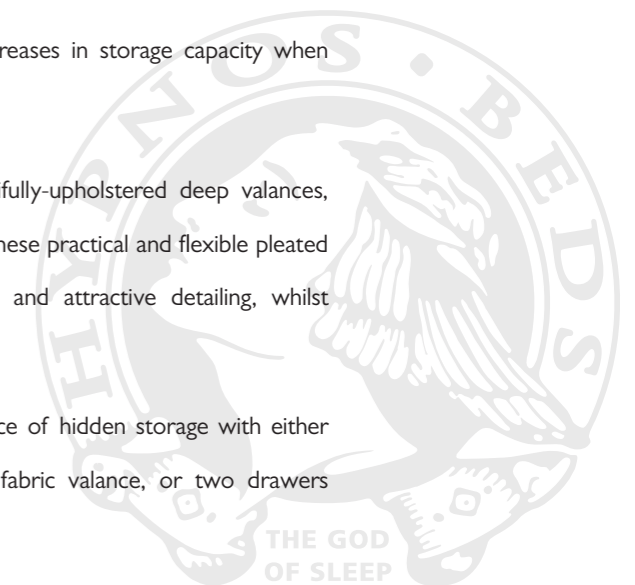

# Style guide

## HIDEAWAY DIVAN BASE

- The Hideaway divan bases offer significant increases in storage capacity when compared with traditional drawers.
- All storage areas are concealed behind beautifully-upholstered deep valances, which cover the full height of the divan base. These practical and flexible pleated valances provide an exquisitely tailored finish and attractive detailing, whilst ensuring easy access to stored items.
- The Hideaway divan bases offer a unique choice of hidden storage with either a deep large open cavity, hidden by a large fabric valance, or two drawers also hidden by a large fabric valance.

# Style guide

## HEADBOARD STYLES

- A beautifully-upholstered headboard provides a bold statement to frame your bed, creating a stunning focal point and finishing touch to both the bed and the bedroom.
- Every design detail of the headboards has been carefully considered, providing a range of classic and contemporary styles, from simple and modern, to deep buttoned, upholstered-to-the-floor headboards. Choose your headboard from our collection of stunning designs.
- The rear of the headboard is upholstered in a black fabric, alternatively you can request both sides of the headboard to be upholstered in your chosen fabric if the rear will be seen once positioned.

### Harriett

A striking symmetrical stylish pattern to create a real design statement in the bedroom.

Size: 132cm high by 9cm deep.

Shown above in euro-slim and Imperio 602 Turquoise upholstered fabric.

Also available as a shallow option.

### Josephine

A contemporary design with three upholstered horizontal panels.

Size: 132cm high by 9cm deep.

Shown above in euro-slim and Linoso 905 Beige upholstered fabric.

Also available as a shallow option.

### Eleanor

A deeply-buttoned contemporary design bordered with hand-piped detailing.

Size: 132cm high by 9cm deep.

Shown above in euro-slim and Linoso 804 Grey upholstered fabric.

Also available as a shallow option.

### Isobella

A deep cushioned centre panel, surrounded by a heavily padded border and finished with hand-piped detail.

Size: 132cm high by 9cm deep.

Shown above in euro-slim and Panama 500 Green upholstered fabric.

Also available as a shallow option.

### Paris

A piped and decorative chrome-studded full-length border follows the outline of this euro-wide headboard with gently curved top and stitched centre panel.

Size: 132cm high by 9cm deep.

Shown above in euro-wide and Imperio 901 Cream upholstered fabric.

### Vienna

A deeply-buttoned and exquisite 'winged' euro-wide headboard. The side wings, with piped detail, wrap around the head of the bed to provide a real design statement.

Size: 132cm high by 9cm deep with 'wings' 30cm deep at their base.

Shown above in euro-wide and Slate Weave upholstered fabric.

## HEADBOARD STYLES

### Victoria

A luxurious euro-slim rectangular piped headboard with two rows of four square segments.

Size: 161cm high by 9cm deep.  
Shown above in euro-slim and Imperio 501 Green upholstered fabric.

### Charlotte

The quirky geometry of the brick-like panels lend an immediate uniqueness to the bedroom.

Size: 161cm high by 9cm deep.  
Shown above in euro-slim and Imperio 805 Grey upholstered fabric.

### Elizabeth

A sumptuous euro-wide piped headboard with 'P' shaped wings, a curving inward header and a deeply-buttoned central panel.

Size: 161cm high by 9cm deep.  
Shown above in euro-wide and Linoso 801 Slate upholstered fabric.

### Francesca

A deeply cushioned headboard with four vertical panels.

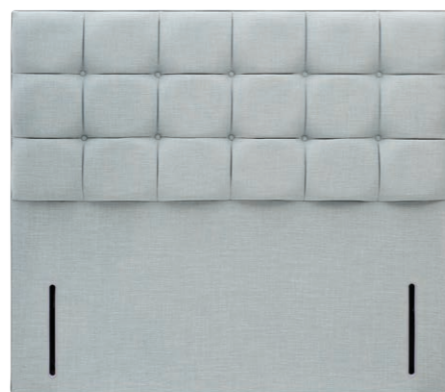

Size: 161cm high or 132cm high by 9cm deep.  
Shown above in euro-slim and Linoso 200 Red upholstered fabric.  
Also available as a shallow option.

### Katherine

An opulent euro-wide headboard with a curved top and unique curved wings which wrap around the head of the bed for a true design statement.

Size: 161cm high by 9cm deep with 'wings' 19cm deep at their base.  
Shown above in euro-wide and Panama 603 Grey upholstered fabric.

### Grace

A deeply-upholstered modern headboard design with three rows of deep-buttoned squares.

Size: 132cm high by 9cm deep.  
Shown above in euro-slim and Linoso 600 Sky upholstered fabric.  
Also available as a shallow option.

## Decide on your headboard style

- For a deep divan base choose from an elegant euro headboard, 132cm in height and upholstered to the floor, available in the same width as the divan (euro-slim) or slightly wider than the divan (euro-wide). Alternatively those who have opted for a shallow divan base can specify a shallow style headboard.

Euro-slim

Euro-wide

Shallow

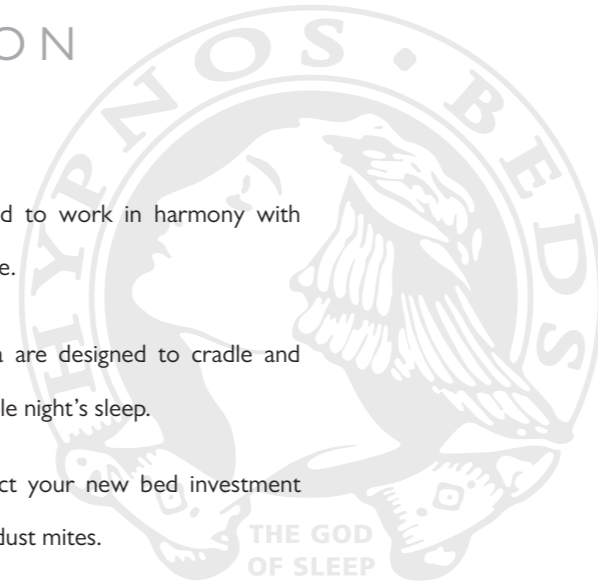

*Only available with a shallow divan*

# Bedding

## COLLECTION

- Hypnos has a range of natural bedding designed to work in harmony with a Hypnos bed for a truly luxurious sleep experience.
- Pillows made from natural latex, wool or alpaca are designed to cradle and support your head and neck for a more comfortable night's sleep.
- A wool-filled mattress protector will help protect your new bed investment from spills and stains, as well as protecting against dust mites.
- Finally a luxurious alpaca duvet regulates your temperature throughout the year to ensure you are cool in the summer and warm in the winter, helping to create a natural sleep haven.
